

interiors

Electra Lift is an elevator and escalator maintenance company who understands the importance of service, reliability and performance. For over four decades we have provided a comprehensive range of services to a growing number of organisations in need of cost efficient lift maintenance, repairs and modernisations.

efficient
reliable
customised
support

Our suggested remodelling scheme provides the following improvements:

- Stainless steel lift car front wall and doors
- Laminate, stainless or colourback glass finish to side and rear walls
- Half or full height, silver tinted, safety-backed mirror to rear and side walls
- Skirting to side and rear walls
- Flush stainless steel mid rail to side and rear walls
- Tubular stainless steel handrail
- Suspended ceiling with downlights
- Stainless steel bump rail to side and rear walls
- Stainless steel or brass car operating panel
- Push buttons and digital indicators
- New quality flooring
- White laminate ceiling
- LED down lights
- Emergency lighting
- Relocation of operating features to comply with Disability Code.

Our prices include:

- Design consultancy
- Twenty four months warranty
- Removal of all redundant finishes from site
- On site testing and balancing of the lift.

In-house Car Interior Design & Installation Services

Our Lift Car Interior Division provides a full design package servicing the lift, building and architectural industry as well as hotels, offices, hospitals and private homes etc. We carry out refurbishments and modernisations to existing lift cars, designed to your own specification or from our extensive range of materials.

All work is carried out to a very high standard with quality materials by our own craftsmen.

Remodelling your existing lift car interior can make all the difference to the confidence of passengers and the image of the property.

For a customised quotation, contact Electra Lift for a direct assessment of your needs.
